Nomadic Display®

Nomadic Display®
CREATIVE EXHIBITION SOLUTIONS
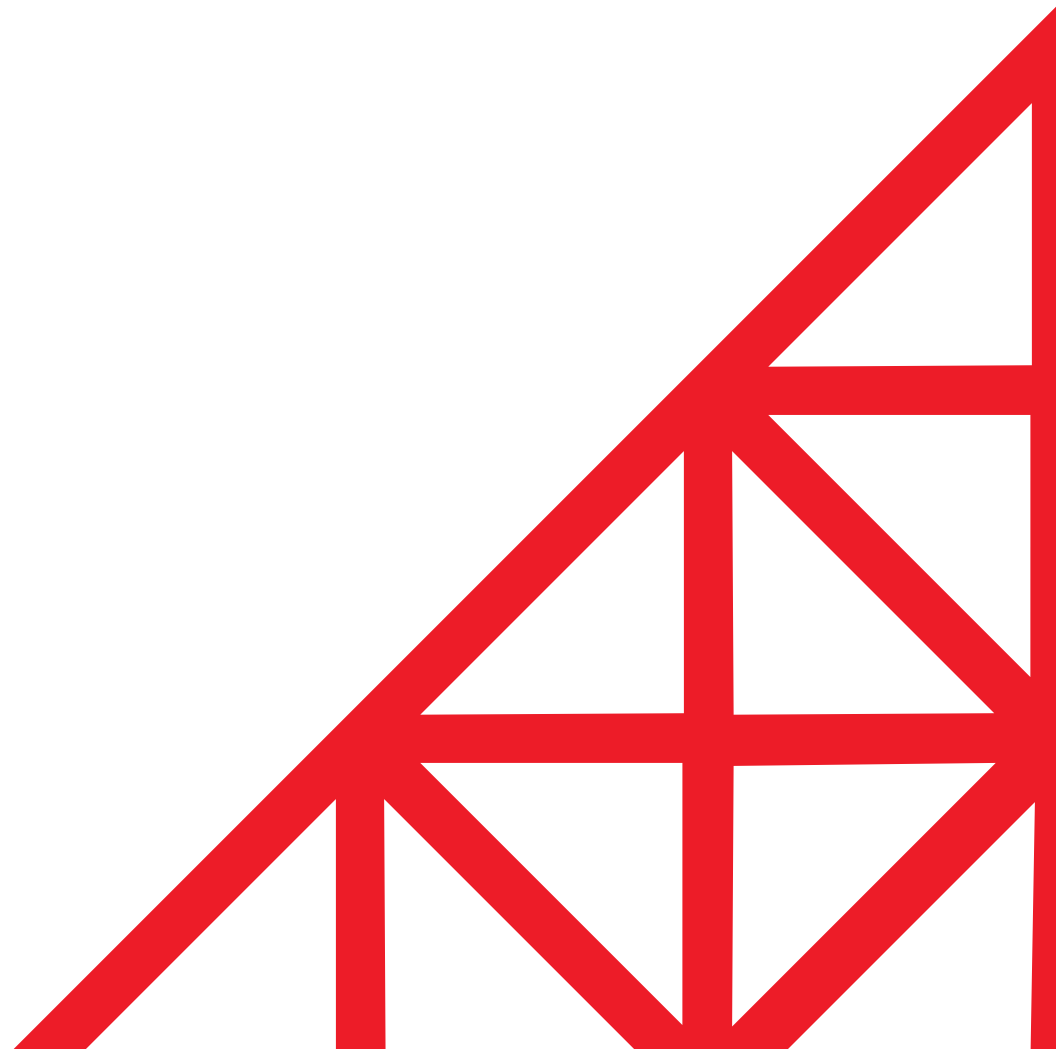

The difference
is QUALITY.

Contents

Built for today,
and TOMORROW.

ONE SOLUTION - MANY POSSIBILITIES

The modular nature of Nomadic Display exhibition stands allows you enormous flexibility to reuse your stand and graphics over your entire exhibiting calendar, and (usually) all from one initial investment.

Apart from the obvious cost savings, you benefit from putting forward consistent branding and 'look' over all your events. Reusing your exhibition stand fits in with your environmental concerns, avoiding the wastefulness involved in using old-fashioned 'build and burn' exhibition stands.

GREAT SHAPE FOR OUTSTANDING RESULTS

Feasibility study and development of the design necessary to the production of the part through diecasting. All the aspects of the process are analyzed: casting, trimming and machining. The analysis of the part brings to the definition of parting lines, tolerances and material allowances to maximize the lifetime of the tools and the final quality of the cast and machined part.
