Wind Dancer 5m flag, page 12

Did you know?
With a wide choice of bases and styles, flags are one of the most visual and striking ways of promoting your business outdoors.

Formulate+

UB730-C

- Strong durable flag poles made from 32mm diameter aluminium tube
- Choice of bases to suit most surfaces
- Wind speed free-standing 19-24mph/29-38kph
- Wind Speed if pegged 25-31mph/38-49kph.

Visible graphic area (approx):

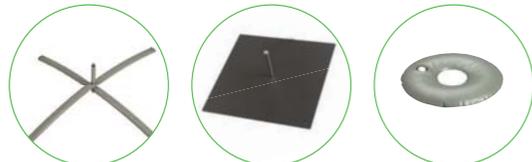

Straight: 3.6m - 2400 (h) x 840 (w) mm

Straight: 4.8m - 3600 (h) x 840 (w) mm

Curve: 3.6m - 2400 (h) x 425 (w) mm

Curve: 4.8m - 3600 (h) x 425 (w) mm

Formulate+ and Formulate Lite bases available

Large cross base*: UF-ZMLCB

Square base: UF-ZMLSQ

Weighting ring: UB719-C

Ground spike*: UF-ZMGS

Drive-on car foot: UF-ZMCF5

Concrete base**: UF-ZMCEM

* Only large cross base and ground spike suitable with 4.8m versions.

** Concrete base only suitable on 3.6m versions.

Recommended to use weighting ring with large cross base.

Formulate Lite

UB730-C

- Strong durable flag poles made from 25mm diameter aluminium tube
- Choice of bases to suit most surfaces
- Wind speed free-standing 19-24mph/29-38kph
- Wind Speed if pegged 25-31mph/38-49kph.

Rectangle UF-FLR-R / UF-FLR-M / UF-FLR-L / UF-FLR-XL

Visible graphic area (approx):

How to care for your flag.

- 1 Life expectancy is entirely dependent on the climatic conditions and hours of flying. Realistic maximum lifespan of a flag used regularly is approximately six months. If any edges of the flag become frayed then trim, reinforce and re-hem to extend its life.
- 2 Flags can be washed in a regular washing machine on a 30°C wash with everyday detergents. Always allow your flag to completely dry out before storing.
- 3 Consider where you position your flag as air pollution will cause the white areas to become grey and UV can, over time, cause deterioration and fading to the fabric.
- 4 Dismantle your flag during adverse weather conditions, including strong winds. Heavy rain combined with high winds can increase the weight of the flag and put extra strain onto the pole.
- 5 Ensure that your flag doesn't catch or snag on its pole or any other surrounding objects. Do not place poles too close together.

* Suitable for use with all versions.

** Suitable for use with 2.8m and 3.4m versions.

*** Suitable for use with 2.8m and 3.4m versions, or if pegged down can be used with all versions.

XXL Zoom Grande

UB730-C

- Tough telescopic pole for adjustable height up to approx. 5.8m high
- Choice of bases to suit most surfaces
- Suitable for both Quill and Feather shaped lightweight fabric graphics
- Wind speed 13-18 mph/21-29kph.

Maximum visible graphic area (approx):

Quill: 4502 (h) x 1400 (w) mm

Feather: 4600 (h) x 1050 (w) mm

Zoom Grande base options

Zoom Aqua

UB116

- Kit includes anchor to keep in position in water, tether rope to retrieve flag from water, galvanised-steel counter weight, pole and base
- Pole constructed using the tough Zoom Grande design
- For use in rivers, ponds and lakes with a minimum water depth of 1.2m and maximum 3.4m
- Exclusive design.

Total hardware dimensions (approx):

Zoom Aqua Feather 3700 (h) x 785 (w) mm

Zoom Aqua Quill 3200 (h) x 1155 (w) mm

Visible graphic area (approx):

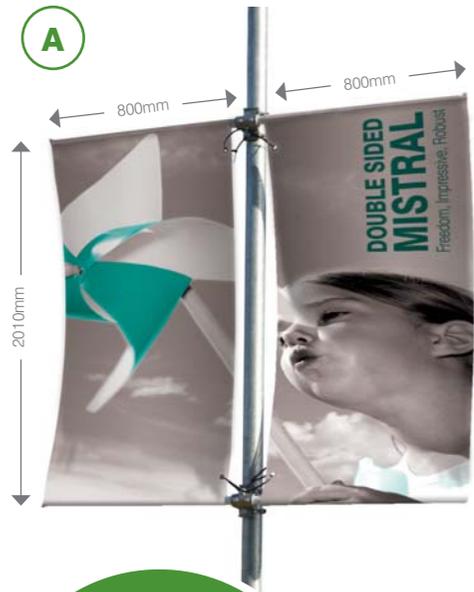

Zoom Aqua Feather: 2600 (h) x 600 (w) mm

Zoom Aqua Quill: 2126 (h) x 908 (w) mm

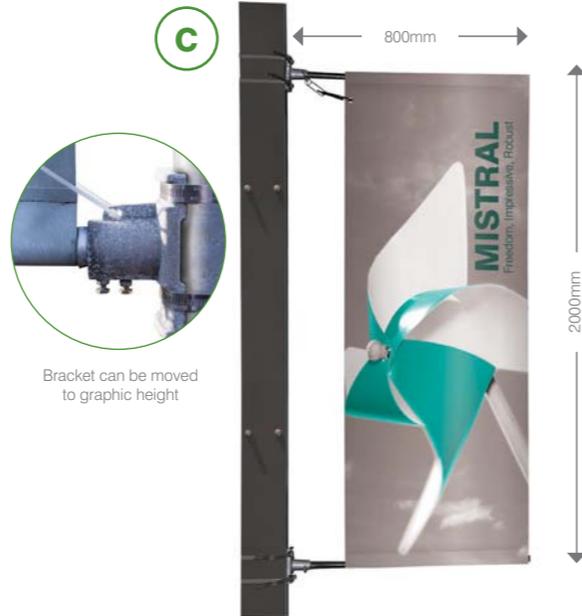

Counter weight and anchor

Did you know?
The Double-Sided Mistral can also be used on central reservations, allowing you to capture two-way traffic.

A Double-Sided Mistral

ONE YEAR

UB725-D

- Mount graphics on lamp posts using both sides of your post
- Brackets can be moved for adjustable graphic height using fabric or vinyl
- Made from weatherproof aluminium castings and GRP tubes.

Visible graphic area (approx):

2000 (h) x 800 (w) mm

B Rotating Mistral

ONE YEAR

UB725-R

- Mounted to posts or walls on an extended arm, allowing the graphic to rotate in the wind
- Brackets can be moved for adjustable graphic height
- Suitable for fabric or vinyl graphics.

Visible graphic area (approx):

1500 (h) x 800 (w) mm

C Mistral

ONE YEAR

UB725

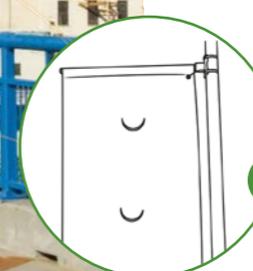

- Display your message from lamp posts or walls
- Brackets can be moved for adjustable graphic height using fabric or vinyl
- Made from weatherproof aluminium castings and GRP tubes.

Visible graphic area (approx):

2000 (h) x 800 (w) m

Top tip!

We strongly recommend wind-slits for continuous use in all weather conditions. Wind-slits depower banner flags.

Top tip!
The Wind Dancer is one of the biggest flags available – giving you up to 5m height of great exposure.

Wind Dancer Bag 4m: AB212-C
Wind Dancer Bag 5m: UB716-C

Concrete Base: UF-ZMCEM

Water/sand-filled base

A Wind Dancer
WD104 (4m) / WD105 (5m)

- 4m or 5m high telescopic flagpole
- The base unit can be filled with water or sand for extra stability
- Portable and lightweight with eyelet fixings for graphics
- Wind speed 13 -18 mph/21-29kph.

Visible graphic area (approx):	Optional bag:
4m: 2800 (h) x 800 (w) mm	AB212-C
5m: 2800 (h) x 800 (w) mm	UB716-C

B Shimmer
WD102

- Outdoor/indoor flagpole with hollow base for sand or water-weighting
- Plastic, easy push-fit assembly with adjustable height; black pole and base
- Suitable for lightweight flag-knit graphic
- Quality construction based on Zoom Grande design
- Optional concrete base available (UF-ZMCEM).

Total hardware dimensions (approx):	Visible graphic area (approx):
2560 (h) x 800 (w) mm	1800 (h) x 550 (w) mm

C Eco
WD101

- Economy 2.9m flagpole with plastic easy push-fit assembly
- Suitable for lightweight flag textile fabric
- 8 litre capacity base
- White adjustable pole with white base.

Total hardware dimensions (approx):	Visible graphic area (approx):
2940 (h) x 840 (w) mm	1800 (h) x 550 (w) mm
Base: 350mm (diameter)	

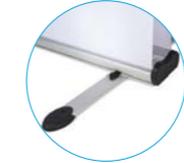

Hurricane 2 banner, page 16

Sprung, three-part, heavy-duty bungee pole

Twist-lock feet

Wide feet for stability, with anchor hole

Pegs for secure ground-fixing included

Durable, waterproof design

A double-sided retractable outdoor banner, Thunder is the ideal roller banner for outdoor use being strong and durable yet very easy to assemble and transport. At 2m high, Thunder will display your message on both sides for maximum viewing impact.

Thunder 2

850mm (w): UB185-850

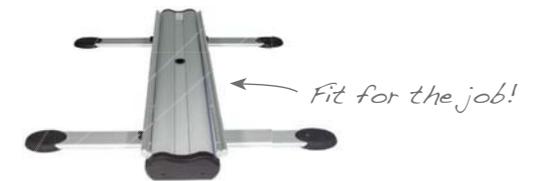

- 2m high double-sided retractable banner
- Large twin feet and strong snap rails
- Sprung, three-part, heavy-duty bungee pole
- Wind speed if pegged 18-24mph/29-38kph
- Wind speed if unpegged 4-7mph/6-11kph.

Total hardware dimensions (approx):

2080 (h) X 900 (w) X 820 (d) mm

Standard graphic height (approx):

2025 mm

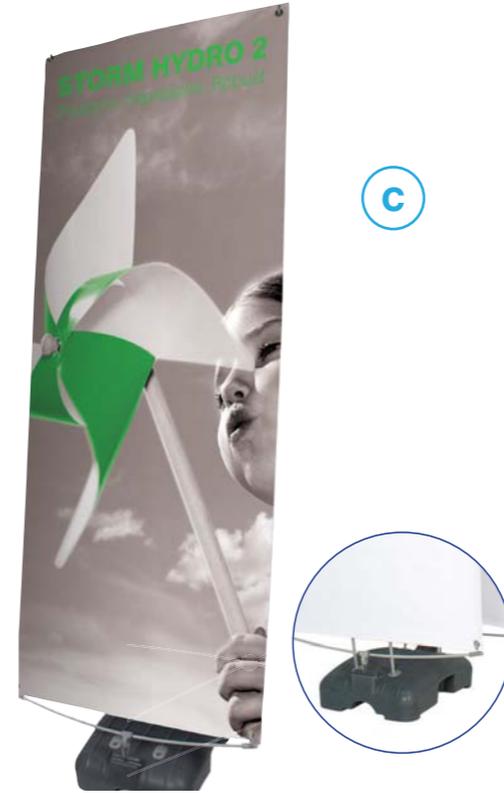

A

B

C

D

A

Hurricane 2

800mm (w): UB700

- Single-sided or double-sided outdoor tension banner
- Graphics attached using self-adhesive slider rail
- Water-filled base, holds up to 28 litres
- Two spring-loaded poles for extra wind resistance
- Wind speed 13-18 mph/21-29kph.

Total hardware dimensions (approx):

2210 (h) x 800 (w) x 790 (d) mm

Standard graphic height (approx):

1960mm

B

Cyclone 2

800mm (w): UB702

- Outdoor roller banner with plastic base water tank, plus handle for easy portability
- Twist out foot for extra stability
- 800mm double-sided graphic
- Twin hybrid poles.

Total hardware dimensions (approx):

2190 (h) x 1005 (w) x 520 (d) mm

Visible graphic area (approx):

2010 (h) x 800 (w) mm

C

Storm Hydro 2

800mm (w): UB209

- Single-sided or double-sided indoor/outdoor banner
- Weather-resistant
- Moulded plastic base for water or sand weighting
- Wind speed 10-12mph/16-19kph.

Total hardware dimensions (approx):

2135 (h) x 813 (w) x 533 (d) mm

Standard graphic height (approx):

1800mm

D

Blizzard

800mm (w): UB701-C

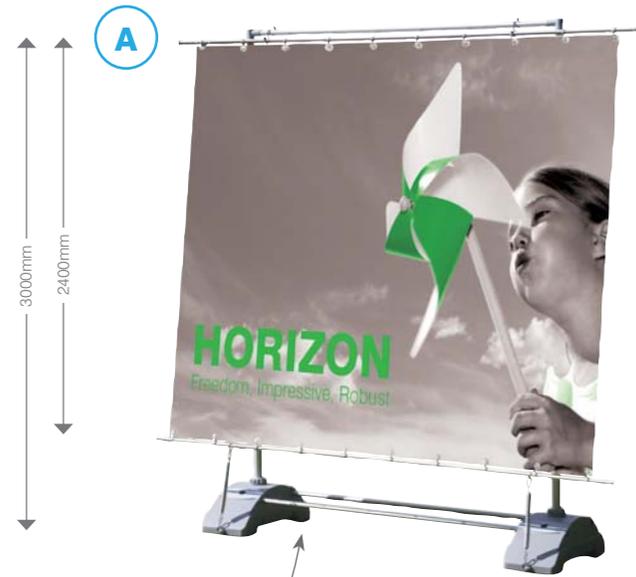

- Stylish design with hollow plastic base for water, or sand-weighting
- Telescopic pole for adjustable height
- Adjustable rail for variable graphic dimensions of 600mm - 800mm (w) to 1500mm - 2000mm (h)
- Wind speed 13-18 mph/21-29kph.

Total hardware dimensions (approx):

2210 (h) x 800 (w) x 540 (d) mm

Standard graphic height (approx):

2000mm

Height adjustable up to 4.8m² per side

UB708-C

Single-sided wall banner, custom-sizes available

A Horizon GRAND FORM RECYCLED ONE YEAR

2500mm (w): UB203

- Single-sided or double-sided banner system featuring a telescopic pole with bungee for adjustable height giving up to 4.8m² per side
- Individual units can be joined together to form a wall with hollow feet for water or sand-weighting
- Wind speed 10-12mph/16-19kph.

Total hardware dimensions (approx): **Adjustable graphic height (approx):**

Base tank dimensions: 800mm x 240mm 1500-2400mm

Also available

Join two Horizon banners together

B Stowaway RECYCLED ONE YEAR CARRY BAG

1400mm (w): UB736-03 / 1700mm (w): UB736-02 / 2000mm (w): UB736-01

- Easily portable and visual impact display stand
- Supplied with carry bag and ground pegs
- Spring fibreglass poles pack away into a small carry bag.

Total hardware dimensions (approx): **Visible graphic area (approx):**

700 (h) x 1420 (w) x 400-480 (d) mm 650 (h) x 1326 (w) mm

850 (h) x 1720 (w) x 400-480 (d) mm 800 (h) x 1602 (w) mm

1000 (h) x 2020 (w) x 400-480 (d) mm 950 (h) x 1894.5 (w) mm

C Monsoon 2, Mini Monsoon 2 and Wall Monsoon RECYCLED ONE YEAR

Total hardware dimensions (approx):

Base: 850 (h) x 810 (w) x 470 (d) mm

Header: 285 (h) x 775 (w)

Visible graphic area (approx): **Code**

Base: 770 (h) x 816 (w) mm PC607

Header: 280 (h) x 770 (w) mm

C

Counta Lite

NEW

PC607

- Similar to Counta, but with slimmer counter profiles, no mid-shelf, tops and bottoms are stackable
- Counter wrap is pre-scored to fold neatly for storage.

Total hardware dimensions (approx):

Base: 830 (h) x 490 (w) x 450 (d) mm

Header: 300 (h) x 780 (w) mm

Understanding printed media

Printing and finishing outdoor products

Specialist printing and finishing skills are required on most outdoor products, especially flags.

We offer a wide range of printing, cutting and finishing techniques to include UV, Dye-sub and latex printing plus digital cutters and expert sewing machinists to give a top-class professional finish.

Whether it's one flag or 100 outdoor banners - no job is too small or too big and turnaround is very fast with quick and reliable delivery.

If you are able to plan ahead you can make impressive savings on the cost of your printing, ask your local dealer for details.

Dye-sub and UV printing

Laser-cutting

Finishing

There is a wide range of printed media available to suit different applications. Here are some explanations of the more popular types of media. See below, or ask your dealer for more information.

- Economy Banner PVC: Ideal for short-term, frequently-changing presentations and outdoor banners
- Standard Banner Polyester/Hybrid: A durable substrate that retains its shape, ideal for mobile presentations and also for more permanent displays, 80% stop-light
- Premium Banner Polyester: High-white giving excellent colour definition. Ideal for semi-permanent displays where a premium finish is required, 90% stop-light
- Pop-Up PVC: PVC 550 micron, UV-cure printed, suitable for indoor use
- Standard Flag Knit: 115g Polyester, textile fabric dye- sublimation printed, suitable for outdoor and indoor use
- Flag mesh: 110gm textile fabric, ideal for outdoor flags
- Display Polyester: 210g textile fabric, dye-sublimation printed, suitable for outdoor and indoor use.

Guarantee

All products are covered by a manufacturer's guarantee against component failure and defects. All our Outdoor products are covered by a one-year guarantee.

We are continually improving and modifying our product range and reserve the right to remove products or vary the specifications without prior notice. All dimensions state height first. All dimensions, graphic information and any weights quoted are approximate and should be used as a guide only.

We accept no responsibility for variance. E&OE
